Each child patient can be accompanied by ONE adult. Please each bring your own mask to the appointment.

Please, stay in your car until we text you to enter through the front door. You will be screened one more time over the phone before entering.

We will email screening questionnaires for the patient and accompanying adult (if applicable) to be filled out 24-48 hours prior to your appointment.

We will provide hand sanitizer when you enter and leave the office.

We know that these are uncertain economic times. We will be customizing payment plans to make orthodontic treatment affordable to you
